Passionate Frontend Developer with hands-on experience building responsive and interactive web applications using React, JavaScript, and Tailwind CSS. Built and deployed 5+ real-world projects, including a resume builder and a dentist appointment system. Strong foundation in clean UI, performance optimization, and component-driven development. Actively seeking frontend internship or junior developer roles.

EDUCATION

Undergraduate

BSc. Hons Computer Science

Herald College Kathmandu | Aug 2021 - March 2024

- Graduated with a focus on **frontend development, databases, and software engineering**.
- Key coursework: Web Development, Data Structures, Algorithms, AI.
- Final Year Project: Developed a Resume Builder Website using the MERN stack (MongoDB, Express.js, React, Node.js).
 - Features: User authentication, pre-built templates, dynamic PDF generation.

+2 (School Leaving Certificate)

Kathmandu Bernhardt School | Jun 2019 – Mar 2021

- Major: Computer Science
- Key subjects: Computer Science, Mathematics.

PROJECTS

Danta – Dentist Appointment

Built a responsive dentist appointment website with appointment scheduling, animated transitions, and an interactive testimonial slider.

Tech used: React, Tailwind, Framer Motion, Swiper

<https://danta-theta.vercel.app/>

Resume Builder Website

In this project, I created a website that allows users to craft their resumes using pre-built templates, helping them build visually appealing resumes.

Tech used: MERN Stack, Tailwind CSS

<https://github.com/rabiiii18/craftMyCvFrontend>

Food Recipe Website

Developed a dynamic and user-friendly food recipe website, allowing users to explore, search, and filter various recipes. The platform boasts a clean UI, responsive design, and an intuitive layout, all designed to enhance the user experience.

Tech used: React, Tailwind CSS, Framer Motion
